

Fee & Expense Information

Annual recurring plan fees are deducted from participant accounts on a quarterly basis. These fees may cover the plan's administrative expenses and service provider fees including IRS 5500 filings, record-keeping, accounting, legal, customer service, and contribution processing.

The following fees will apply to your account. Plan fees include a fixed administration fee and an asset based fee. The fixed administration fee paid to Slavic is \$35.00 per year, billed at \$8.75 per quarter in advance, and is not pro-rated. This fee changes based on the participant count determined quarterly as shown below.

Participant Count	Annual Fixed Administration Fee
0-50	\$35
51-100	\$30
101&Above	\$25

The asset-based fee is charged pro-rata to participant accounts and is determined by the total assets in each adopting employer's plan. For example, if the adopting employer's plan assets are \$1,000,001, each account will be assessed 55.00 basis points (0.40% + 0.15%) or 13.75 basis points per quarter (10.0 basis points per quarter to Slavic and 3.75 basis points per quarter to Castle Rock Investment Company). This translates into a fee of \$1.38 per \$1000 of account balance, per participant, per quarter. Various unpredictable administration fees associated with mailing required notices, personnel costs, plan audits (if required), etc. may be deducted from plan assets on a pro-rata basis.

Account trades are cleared through Mid Atlantic. Slavic pays 4 basis points to Mid Atlantic in order to trade through this network, which is included in the Slavic asset fee and not assessed as an additional fee to participants. Mid Atlantic retains 10% of any shareholder servicing and sub TA fees paid by the funds. That portion is not reimbursed back to plan participants; however, 90% is reimbursed. There are no shareholder type fees other than the expenses disclosed. Most fund options do not pay these types of fees and participants are not affected accordingly.

Castle Rock PEP Investment Performance

for the Period Ending 2/28/2026

The following tables list the annualized investment performance and expenses of each investment option available in the plan. The funds performance is compared to it's corresponding benchmark, based on the most recent performance data from InvestView. The expense ratio represents the funds operating expenses that reduce the rate of return of the investment option. Also included are 12b-1 fees and shareholder-type fees, which are credited back to the participants account when received by Slavic.

The mutual fund companies may pay the broker of record or record keeper basis points on the assets in the plan. These are called 12b-1 and sub TA fees and are listed in the prospectus and are also displayed below. These fees are credited back to participants owning the funds at the time payment is received. Crediting is on a cash basis, and fees are not accrued. The fund companies may pay these fees after a

waiting period of up to one year. Only long-term investors will receive the full benefit of the fee reimbursement program.
